

STAPLES Advantage

An easy decision. Ink and Toner Recycling Program.

Conserve natural resources.

Remanufactured cartridges minimize the waste of limited resources such as plastic, steel, aluminum and rubber.

Reduce materials in landfills.

The discarded toner cartridge adds 2.5 lb. of metal and plastic waste to a landfill and can take up to 1,000 years to decompose.

Recycle packaging.

The packaging materials that protect the toner cartridge are designed to be reused when you return your old cartridge for recycling.

Committed to the environment.

With more than 50 million ink and toner cartridges recycled over the past two years, Staples is one of the world's largest ink and toner recyclers.

Staples Advantage is committed to the highest level of environmental responsibility by reusing or recycling 100% of a cartridge's components. By working together, we can help the planet and make sure empty cartridges don't end up in the trash.

Regardless of brand, our drivers can collect them from you the next time a delivery is made. It's this easy:

- Arrange a pick up location with your delivery driver
- Securely package your empty cartridges in the original box, a copy paper box or any other appropriately sized box
- Leave it for your delivery driver to pick up at the designated location

Or, you can simply mail back your empty cartridges using a pre-paid mailing label. [Click here for the label.](#) You can also access the label on EWay.com by clicking on the "Learn more about Staples ink and toner recycling program" under "News and Information" on the left hand side of the window. Then click on the red "Print Your Mailing Label" link.

Help us make a difference: start recycling your used ink and toner cartridges today with Staples Advantage!

For more information about developing a recycling program, talk with your delivery driver or contact your Account Manager.
