1. To filter and work with certain Funds within the loaded data, use the Fund Filter button (functions like Inflated will only apply to the filtered data).

2. Select the desired Fund by either:
   - Enter a single Fund or range of Funds if known, or populate them by selecting from the drop-down menu.
   - OR
   - Find a Fund and select, use the Get Funds button.
   - Select one or more Fund from the left side and use the Add button to move the selection to the right side under Chosen Selections.
   - Click the Done button.
   - Click Load Data.

3. Review the filtered data that is now loaded in the layout.
